About Us...

Neuropsychological Associates offers a full range of mental health evaluations and services. A complete forensic evaluation

"..existence begins in every instant..."

Nietzsche

examines a variety of domains, including personality, cognitive, education, employment, neuropsychological, medical, developmental

and historical factors. Clinical composites are determined by combining test scores with clinical observations and a comprehensive case review. The results can be utilized in a variety of contexts, including civil, criminal and employment cases and in consultations with attorneys and other service providers.

Available Forensic Services

- Child Custody Evaluations
- Parental Capacity / Bonding Assessments
- Risk Assessment / Domestic Violence Evaluations for Adults and Juveniles
- Termination of Parental Rights
- Guardianship / Conservatorship Assessments
- Capacity / Competency
- Personal Injury Evaluations
- Expert Witness
- Jury Consultations
- Fitness for Duty
- Mediation and Alternative Dispute Resolution

Additional Services Include

- Neuropsychological evaluations for adults, adolescents and children
- Criminal responsibility and diminished capacity
- Competency to understand Miranda warning
- Competency to stand trial
- Competency to confess and suggestibility
- Need for civil commitment relating to mental illness and substance abuse
- Brief Focused Assessments
- Diagnostic services
