

Neuropsychological Associates

Comprehensive Assessment, Diagnostic
and Forensic Services

The "Trust Vault"

As the recent L'Oreal case highlights, financial abuse of the elderly and affluent is growing to epidemic proportions. Protect your clients when they establish a will, estate plan or trust by providing them the security of knowing that their wishes are established, supported and maintained with a professional's certification.

Neuropsychological Associates offers your clients peace of mind by ensuring that any and all changes to their established plans would require the confirmation of competency/capacity for revision.

Located in the Atrium
Building on North Dutton
Ave.

Easy convenient access,
Handicap Accessible.

- Wills
- Estate Plans
- Trusts

The "Vault" is comprised of:

- Medical Record Review - Collateral Family Interviews
- Highly Reliable Standardized Psychometric Measures
- Psychopharmacological Review / Consultation

**Free Initial
Consultation**
